

Specifications

Description Below is a summary of exits for each (Provider and Participant) combination from 1 Jan 2023 to 31 Dec 2023

Source data School Leaver Employment Support Provider Tool Stacked Data, 4 Quarters from 1 Jan 2023 to 31 Dec 2023

Notes The count in the list below is slightly higher than in the School Leaver Employment Support Main Report, final exit section, because:

- here: if a participant was served by multiple providers, and has multiple exit dates in the period with multiple providers, the participant is counted multiple times
- in the main report: the participant exit will be counted once (just the latest one in the reporting period)

Any cell with a count of 1- / has been masked to protect the participant's identity.

Where no outcomes were reported in the outcome category, the cell has been marked 0.

Only providers who reported at least one participant exit from their service in January to December 2023 appear in the Provider Final Outcomes Breakdown. There may be participants who are in employment, still receiving support from the provider, who are not represented in the Provider Final Outcomes Breakdown because they haven't exited (no exit date populated).

Providers listed vary in size, area of operation and length of time delivering employment services. Results do not adjust for these provider attributes or the profile of the participants they are working with. Hence they may not be a true reflection of provider performance relative to opportunity, and should be used for indicative purposes only.
